EDUCATION

Bachelor of Science in Computer Science

University of Portsmouth

Sep 2024 – Jun 2027

Portsmouth, United Kingdom

- Pursuing a BSc in Computer Science with modules in Programming, Data Analytics, Database Systems Development, Internetworking & Operating Systems, Data Structures, and Software Engineering.
- Gained hands-on experience through collaborative, real-world database projects.

WORK EXPERIENCE

Full-Stack Developer Intern

Correctify

Jul 2025 – Sep 2025

Limassol, Cyprus

- Maintained and added new features on a monorepo-based full-stack blog platform
- Used Docker to containerize services and streamline deployment
- Integrated Directus CMS for dynamic content management
- Worked with Next.js for SSR frontend and PostgreSQL for backend data storage
- Collaborated using Git, GitHub, and modern agile workflows

SKILLS

- **Languages & Tools:** Python (Tkinter), Dart (Flutter), C++, SQL (PostgreSQL), HTML, CSS, R, Haskell
- **Frameworks & Libraries:** React, Next.js, Tailwind CSS, Docker
- **Tools:** Git, GitHub, Cisco Packet Tracer, Directus CMS

PROJECTS

UniSphere (3-Tier Software Engineering Project)

Sep 2025 – Present

- Led a 7-person team building a Flutter/Firebase event management platform. Conducted 31 user interviews, defined 26 functional requirements, and architected a three-tier Client-Server system with PR-reviewed Git workflow.

ProjectX Wash - Car Detailing Website

Mar 2026 – Present

- Built a production car detailing website for a real client in Nicosia. Next.js 16, TypeScript, Tailwind CSS v4. Achieved 100/100 Lighthouse Best Practices & SEO. Deployed on Vercel with automated CI/CD via GitHub.

Next.js Dashboard

Sep 2025 – Dec 2025

- Full-stack dashboard with invoice CRUD, real-time search, NextAuth.js auth, and PostgreSQL. Implemented server components, streaming UI, and Zod validation.

CarCare Hub Database Design (SQL)

Sep 2024 – Apr 2025

- Designed a normalised PostgreSQL database for a car maintenance business — customers, vehicles, services, appointments, technicians. Applied 3NF normalisation, indexing, and wrote analytical SQL reporting queries.
